PROFILE

A passionate engineering student with a solid foundation in Artificial Intelligence, Machine Learning, and Full-Stack Web Development. Adept at solving real-world problems, leading projects, and adapting to new technologies. Aiming to become an AI Engineer at Google. Currently pursuing B.Tech in Electrical Engineering from DTU.

PROJECTS

Smart India Hackathon & MAIT Hackathon

Team Participation

📅 2024

- Built practical solutions for real-world problems in team-based national hackathons.

Portfolio Website

Personal Project

📍 codergyani.github.io/myportfolio

- Developed a responsive personal site using HTML5, CSS3, and JS; deployed via GitHub Pages.

EduGrow Counseling Platform

Startup Project

📅 2023 – Present

- Built dashboard, login systems, and backend API endpoints.
- Stack: Node.js, PostgreSQL, Express.js, WordPress (Headless CMS).

EXPERIENCE

Freelance Web Developer

Self-employed

📅 2023 – Present

- Delivered full-stack websites and admin panels for NGOs and startups.
- Supported hosting, SEO, and basic deployment consultations.

SKILLS

Python | Java | C++ | DSA | Machine Learning | Deep Learning | CNNs | Transformers | Fine-tuning
PyTorch | Scikit-learn | HTML | CSS | JavaScript | React.js | Node.js | Express.js | PostgreSQL

HIGHLIGHTS

100/100 in Math & Chemistry (CBSE 12th)
Top performance in academics

Full-stack App Projects
From design to deployment

Deep Learning with PyTorch
Fine-tuning LLMs and CNNs

Machine Learning and Models
Transformers ,RAG,Hugging face,ANNs

LeetCode + DSA Practice
Regular algorithm mastery sessions

EDUCATION

B.Tech in Electrical Engineering

Delhi Technological University (DTU)

📅 2023 – 2027   📍 Expected CGPA: 8.5+

Class 12 CBSE

Maharaja Agrasain School, Delhi

📅 2022   📍 96.8% (100 in Math & Chemistry)

Class 10 CBSE

Maharaja Agrasain School, Delhi

📅 2020   📍 86%
